

TELEVISIONING PIPE NOTICE

Project: Townsend Surface Water Matching Planning Program | Televisioning Pipe
Project Location: Townsend, Delaware
Development: Townsend Station
Contractor: Standard Pipe Services, LLC

Hello,

This notice is being issued to make you aware of televisioning pipe activities in your development for the project listed above.

The project consists of investigating the existing condition of the interior of the stormwater pipes in the Townsend Station development. Standard Pipe Services will be using a camera to record the condition of the interior of the pipes. There will be several trucks and machinery on site during this project. No repairs will be made at this time. This project is only to obtain the condition of the pipes. The Town of Townsend will implement a plan of action to complete the necessary repairs at a later date. The televisioning of the stormwater pipes of this project is scheduled to begin **June 6th** and to be completed by **June 17th**.

We regret any temporary inconveniences you may experience during the construction. While every effort will be made to provide continuous automobile and pedestrian traffic during the televisioning activities, please be aware of any temporary parking restrictions, road/sidewalk closures or detours that may be posted.

The safety of residents, motorists, pedestrians, and workers will be a priority during this project. During televisioning activities, please be aware of any safety signage, barriers, equipment and workers so that we can maintain a safe and secure working zone.

If you have any questions, comments or special needs during this project, please feel free to contact us.

- **Standard Pipe Services Superintendent - Steve Scruggs @ 302-300-7927**

In addition, if you have any questions, comments, or special needs that you would like to communicate to the Town of Townsend, please call (302) 378-8082.

Sincerely,

Matt Zakutny
Standard Pipe Services
